

THE TERTIARY SECTOR

The tertiary sector gives services to the people. It is also called the service sector (sector servicios).

The main sectors are:

- **Education:**

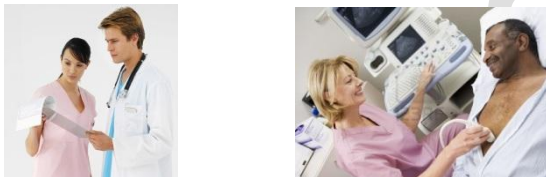

Teachers transmit culture and information to students.

There are infant schools, primary schools, high schools and universities.

- **Health care:**

Doctors and nurses help people to be healthy.

- **Financial sector:**

The financial sector works with money. Banks are part of the financial sector.

- **Transport:**

Transport is the movement of people, animal and goods from one place to another.

- **Retail:**

Shops sell lots of products that they change for money.
