

HOW ANIMALS REPRODUCE

Animals reproduce in two ways:

- Mammals are **VIVIPAROUS**.
They have **live babies**.

- Invertebrates, birds, fish, reptiles and amphibians are **OVIDAROUS**.
They lay **eggs**.

WHAT DO ANIMALS EAT?

We can classify animals by what they eat.

- **Herbivores** eat plants.
- **Carnivores** eat other animals.
- **Omnivores** eat plants and other animals.
